Technical Bulletin 2023/24 - #0001

To: All BMW Race Driver Series Competitors
From: BMW Race Driver Series Committee and Technical Advisory Working Group.
Date: November 17, 2023
Re: E46 Class Technical Regulations Update

The following changes have been made to the 2023-2024 E46 Spec Technical Regulations and take effect from the above date of issue.

Rule 5.5(b) is being replaced with:

Aftermarket Flywheel's are permitted provided the clutch engagement surface is 240mm in diameter, and a minimum weight of 6.7Kg's.

Note: These weights are inclusive of the three dowels, Ring Gear and Crank Bolts but exclude all other components.

Rule 7.1(a) is being replaced with:

Aftermarket clutches are permitted, provided the clutch disc diameter is 240mm. Clutch covers made from materials other than steel are prohibited. Modifying the clutch cover to reduce weight is prohibited.

Rule 3.2(f) is being replaced with:

Either the steel (31111096431) or alloy (51717028433) subframe reinforcement may be fitted or removed. If fitted, no modifications are permitted. OEM plastic splash guards/undertrays may be fitted or removed. If fitted, no modifications are permitted - including to attachment points.
