2 LITRE CLASS REGULATIONS

BMW Race Driver Series

2 Litre Class Regulations

2024-2025

1. Objective:

Objective of this class is to support and encourage friendly close racing, with the main constraint of engines being limited to 2000cc displacement. Regulations provide for teams to develop and build cars of their liking, allowing for a large scope of possible chassis and power unit combinations.

2. Eligibility:

2.1 Entry to the BMW Race Driver Series is by invitation only, at the discretion of the Committee.

2.1.1 Competitors are only permitted to enter their vehicle into one class within the BMW Race Driver Series; however, the same car may be shared by two different drivers.

2.2 All drivers must have a MotorSport NZ C1 Grade licence, or higher.

2.3 All drivers must be a financial member of the BMW Race Driver Series and have a current BMW Car Club NZ Membership.

2.4 Presentation of cars must be to a high standard and the organizers reserve the right to refuse entry to cars deemed not up to standard. This requirement also applies to vehicles previously accepted for the BMW Race Driver Series where their condition has deteriorated to the point where this is not of an acceptable standard.

3. Series Entry:

3.1 Entry into the Series can be made by visiting www.bmwraceseries.co.nz.

(1) Full season entry is \$200, **or**

(2) Per round entry is \$75

3.2 By entering the Series, all drivers agree with and shall abide to the Technical Regulations in Part Two of this document, and the BMW Race Driver Series "Culture Document".

3.3 The BMW Race Driver Series reserves the right to accept "guest" drivers from time-to-time. Such entries shall have no bearing on the points results.

4. Dates:

4.1 The following dates and venues have been organised for the 2023-2024 season, however may be subject to change due to circumstances beyond the BMW Race Driver Series' control.

5. Race Formats:

5.1 The 2 Litre Class will be combined with the Open Group C class.

5.2 Qualifying: There will be one Qualifying session.

- (a) If because of track closure / blockage, weather delays or other external influences, a valid time is not registered for at least 50% of the cars on track for the qualifying session, then all qualifying times will be set aside.

The grid for Race One shall be determined by the points finishing order from the previous round. However, this does not include individual cars that do not get a valid qualifying time because of their own mechanical failure or accident. These cars automatically go to the back of the grid.

Ranking for entrants who did not participate at the previous round will be determined by ballot.

- (b) If it is the first race meeting of the season and because of track closure / blockage, weather delays or other external influences, a valid time is not registered for at least 50% of the cars on track for the qualifying session, then all qualifying times will be set aside.

The grid shall be determined by the points finishing order from the previous season's championship finish. However, this does not include individual cars that do not get a valid qualifying time because of their own mechanical failure or accident. Those cars automatically go to the back of the grid.

Ranking for entrants who did not participate in the previous season will be determined by ballot.

5.3 Races: there shall be three races at each round.

- (1) **Race One:** shall be a ten-lap scratch race (standing start).

- (a) The grid for Race One will be set using the fastest to slowest results from qualifying followed by those without valid qualifying times.

Those without valid qualifying times shall be ordered by their points standing in the championship to date. If this is the first round and there are cars without a valid qualifying time they shall be ordered in the rear of the grid by ballot.

Cars that are entered and qualified, but unable to compete in the first race will have their grid place left blank.

- (2) **Race Two:** shall be an eight-lap, handicap race.

- (a) The grid for Race Two will be set using "best of meeting" lap times from Qualifying and Race One.

- (3) **Race Three:** shall be an eight-lap, handicap race.

- (a) The grid for Race Three will be set using "best of meeting" lap times from Qualifying and Race One, and Race Two.

- 5.4** In the absence of valid Qualifying or Race times for one or more cars, their times will be calculated using historical data. If no such data exists, then they will receive an assessed lap time, as determined by the BMW Race Driver Series Committee.
- 5.5** To discourage “foxing” in Qualifying, Race One and Race Two, drivers will be penalized for “breaking out” of their handicap lap time. If their lap time improves by more than 1.5% per lap, they will be penalised according to the table below for each breakout lap.

Lap	Penalty	Lap	Penalty
1st Lap	-10	5th Lap	-50
2nd Lap	-20	6th Lap	-60
3rd Lap	-30	7th Lap	-70
4th Lap	-40	8th Lap	-80

For the avoidance of doubt a breakout in the first three laps will result in a penalty of -60 points.

- 5.5.1** To allow for changing track conditions across a meeting, usually because of the weather, this break-out will be measured against the average of the field.
- 5.5.2** If a competitor experiences a mechanical failure or other such issue resulting in an unrepresentative lap time, they may nominate a more accurate lap time. The nomination must be submitted in writing (text or email) to the series coordinator within one hour after the race concludes.
- 5.5** Being classified as a finisher of each Race will be in accordance with Schedule Z, Article 11.3.

6. Points:

- 6.1** Points will be awarded to each Driver based on their overall qualifying result within each Class, at each Round, as follows:

14th	104	28th	62	42nd	36

6.3 Point scores from a competitor's two worst competed race results of the Series will be excluded from their final points tally at the end of the season.

- (1) Races not competed in will not count as an exclusion unless the competitor at least entered that race meeting and completed the documentation process at the venue.

Should extenuating circumstances exist then the Committee, at its sole discretion, may select any race result as a drop. All other race results will be counted, including any non-scoring races.

- (2) If because of a penalty a driver is penalised from one or more qualifying sessions, races, or even complete meetings, then none of those non-scoring races or qualifying sessions can be “dropped”. This applies in the case of both driver behavior issues and technical infringements and is irrespective of whether the penalty was applied by MotorSport NZ Officials, or from within the BMW Race Driver Series.

6.4 Should a driver use more than one vehicle during the season, providing the vehicle they have changed to is eligible for the 2 Litre Class, points may be carried over.

7. Penalties:

7.1 These shall be considered minimum possible penalties to be applied by the BMW Race Driver Series committee and are not limited to those written below. The BMW Race Driver Series Committee has the right to impose point penalties for any breaches of the technical regulations, these regulations or the Culture Document.
